THE MARK

سِمَة means a distinguishing mark – the trait that makes something instantly recognisable. It is what every brand we work with already has, and what their digital presence should carry.

السِّمَة هي العلامة التي تميّز الشيء وتجعله يُعرف من أول نظرة. كل علامة نعمل معها لها سِمَة – ومهمتنا أن نبنيها رقميًا.

THREE DIRECTIONS. ONE MARK.

A • THE SEAL

AL-KHATM

A heritage stamp pressed in oxblood ink. Beautiful for a perfume house — but it says tradition, not technology.

REJECTED

B • BLUEPRINT

THE SYSTEM

Grids, coordinates and signal orange. Credible but cold — luxury clients would read it as a software vendor.

REJECTED

SELECTED

C • FOLDED METAL

THE MARK

One sheet of metal, folded once and pinned in saffron. Technical enough for a digital studio, crafted enough for oud and couture.

DEVELOPED

ONE SHEET. ONE FOLD. ONE PIN.

Two identical half-rings, rotated 180° and stacked so they touch at a single point. It reads as an S for SIMA without being a typed letter — and the saffron pin marks the fold, like the kasra marks سِمة.
